Sea Duty For Lieutenant Brittain.

The friends of Lieut. Carlo B. Brittain, U. S. Navy, will be glad to learn that he has a prospective tour of sea duty, which will be most interesting and instructive and may become notable. The President has, for special reasons, requested Rear Admiral Robley D. Evans to take command of all our war ships in Atlantic waters. Admiral Evans recently commanded the Asiatic fleet and put it on a splendid fighting basis. He is considered the ablest officer in the U. S. Navy and it was, no doubt, this consideration which prompted the President to place Admiral Evans in command of the Atlantic fleet, comprising, as it does, the main part of the whole navy. To begin with, there is the squadron of eight battleships, to which perhaps as many more will be added before Admiral Evans relinquishes command, the armored cruiser squadron of four new 14,000-ton cruisers of 22 knots speed, and splendid batteries, to which two more will be added within the year. There are two other cruiser squadrons, composed of such fighting cruisers as the Olympia and Brooklyn and the newer cruisers of the Denver class; there are four coast defense monitors and two training squadrons, all composed of fighting ships. With half a hundred warships and the collier supply ships and smaller fry, Admiral Evans will have a fleet far exceeding in power any that the United States has ever heretofore assembled.

Among the officers who are to accompany Admiral Evans on his personal staff and assist in the management of this powerful fleet, we see the name of Lieut. Carlo B. Brittain, and with a high degree of pride, for the Admiral has practically the whole navy from which to choose his staff, and it is a compliment to any officer to have been selected as his aide.

One does not know what the next three years will bring forth. With the Isthmian canal building, the Monroe doctrine to uphold, the unsettled condition of affairs in several of the West Indian and Central and South American States, there is always the chance of trouble brewing for Uncle Sam.

Under Admiral Evans, a hero of two wars, and the recognized fighter of our sea forces, we may feel assured that our fleet is in able hands, and service with him is sure to be "service at the front," or wherever there is "something doing," hence the good fortune of our Lieutenant from Madison county. Lieutenant Brittain will accompany the Admiral on his flagship, the Maine, and will undoubtedly have a cruise full of work and interest. He will leave his shore duty at Annapolis about six weeks hence, and some two months sooner than he would have otherwise, in order to accept this most desirable sea duty. Lieutenant Brittain's last cruise was in the Philippines and China and we congratulate him and his wife, (nee Mamie Baldwin), also of Madison county, that this cruise is to be in home waters, when their separations need be but short ones. Mrs. Brittain will expect to make her husband many visits at ports all the way from New Orleans to Bar Harbor, and his presence on the staff and flagship of the commander-in-chief will insure that her visits are made under the most pleasant auspices—Richmond Climax. Lieut. Brittain married a sister of Mrs. W. H. Shanks, of this place.

Incredible Brutality.

It would have been incredible brutality if Charles F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Also good for burns and ulcers. Only 25c at Penny's Drug Store.

W. C. T. U. Lady—If I was your wife sir, I'd give you poison.

Inebriate gentleman (soberly)—If you was my wife (hic), madam, I'd be (hic) down glad to take it!—Puck.

Louisville's population is now 232,466, according to a careful estimate following the annual investigation by the Caron Directory Co.

To Old People

If the people of this town only knew the good Vinol does old people, we could not get enough to supply the demand. With old age comes feebleness and loss of power, lack of strength and vigor. To prove our belief that Vinol is the greatest strengthener, body builder, and invigorator for old folks, we say to all—try it, and if you are not satisfied we will return your money.

Startling Mortality.

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases there is just one reliable remedy—Dr. King's New Life Pills. M. Flannery, of 14 Custom House Place, Chicago, says: "They have no equal for Constipation and Biliouness." 25c at Penny's Drug Store.

The spots on the sun may possibly be advertisements, the face of the earth being already utilized.—Puck.
